SITUATION SUMMARY

Governor Brown Sends Firefighting Assistance to State of Washington

As thousands of homes and residents are threatened by devastating and deadly wildfires in the state of Washington, Governor Edmund G. Brown Jr. today directed his Office of Emergency Services (Cal OES) and CAL FIRE to send firefighters and equipment north to help battle the flames.

- Four strike teams of fire engines and personnel (20 fire engines) from local government agencies and CAL FIRE departed northern California today. They are expected to arrive in Washington sometime early Monday morning.
- In addition to equipment and personnel from Cal OES and CAL FIRE's Amador-El Dorado and Nevada-Yuba-Placer Units, the following local government agencies make up the mutual aid contingent headed to the state of Washington: Colma Fire Protection Department, Dixon Fire Protection District, East Bay Regional Park District Fire Department, Modesto City Fire Department, North County Fire Authority (City of Pacifica), San Mateo City Fire Department, Santa Clara County Fire Department, Stanislaus Consolidated Fire Protection District, Winters Fire Department, West Stanislaus Fire Protection Department, Woodbridge Fire District.

SOC Activation for California Wildfires

- The State Operations Center (SOC) is activated at Level 1.
- The Coastal REOC is activated at Level 1.
- The Inland REOC is activated at Level 1.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- Increasing upper level high pressure to the east will bring southeast monsoonal flow into Southern California for possible afternoon and evening thunderstorms Monday through Wednesday.
- Strong gusty winds and low relative humidities will result in critical fire weather conditions from Monday afternoon through Monday evening for portions of Modoc County.

Active Weather Warnings, Watches and Advisories by County:

SITUATION SUMMARY

Train Derailment, Bloomington, San Bernardino County, SPILL 15-4944

On 08/23/15 at 1138 hours, UPRR advised two rail cars derailed upright within the West Colton Rail Yard in Bloomington, San Bernardino County, due to unknown causes. The rail cars are carrying lumber. There were no injuries, no hazardous material releases, and no mainline closures associated with this incident. Notifications were made per CSWC SOP.

Petroleum Sheen/Tarballs, Goleta, Santa Barbara County, SPILL 15-4934 and SPILL 15-4925 (Final)

On 08/21/15 at 1936 hours, an NRC Report filed by City of Goleta reported a mousse like oil slick at Haskell's Beach in Goleta covering a 1 mile area. A similar situation was also observed at Ellwood Beach. SPILL 15-4925 was created.

- USCG investigated and determined the oil was due to natural seepage.

On 08/22/15 at 1149 hours, an NRC Report filed by a private citizen reported an unknown sheen 1 mile in size observed at 1900 hours on 08/21/15 near 7516 Seagull Drive in Goleta. SPILL 15-4934 was created.

- USCG is investigating to determine if this sheen can be correlated to the sheen at Haskell's Beach.
- Per USCG on 08/23/15, after USCG investigation, cause was determined to be natural seepage that correlates to the same sheen reported on the night of 08/21/15.

In addition, on 08/22/15 at 1258 hours, an NRC Report filed by Surfrider Corporation reported observing tarballs covering a 1 mile area at Haskell's Beach at 0700 hours on 08/22/15. SPILL UPDATE 15-4925 was created.

- USCG Sector Los Angeles/Long Beach advised per USCG Marine Safety Detachment on scene, the cause of the reported tarballs was determined to be natural seepage and correlates to the reported sheen from the night of 08/21/15.

There are no requests for assistance or unmet needs.

The California State Warning Center conducted all appropriate notifications, including but not limited to local government agencies.

WEATHER

WEATHER SYNOPSIS BY REGION:

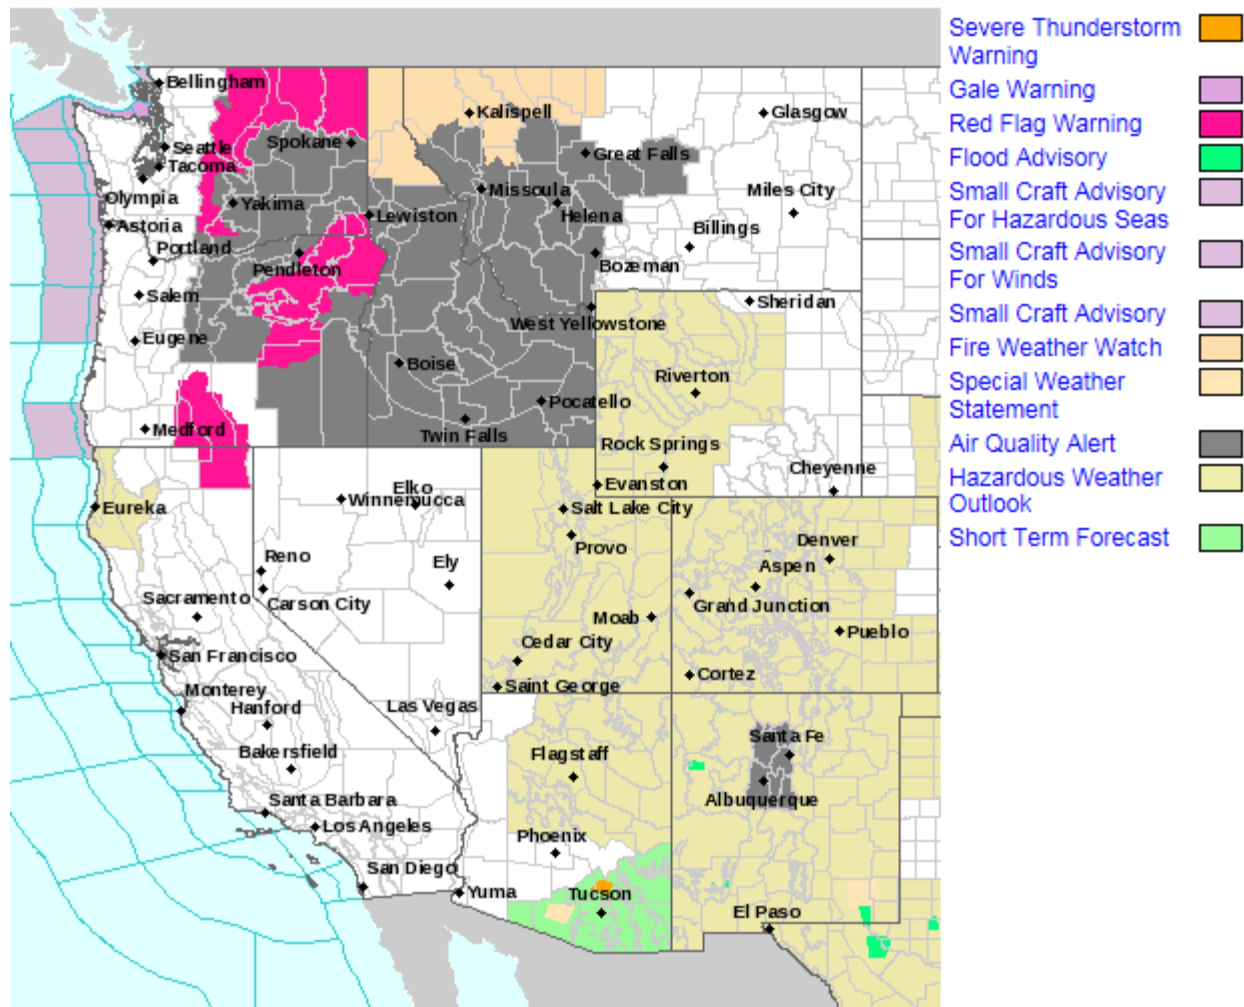

NORTHERN CALIFORNIA

High pressure currently overhead will begin to weaken late today as a low pressure trough deepens in the Eastern Pacific. Warm and dry conditions are expected again today, but cooler and more humid conditions are expected during the upcoming week as the trough continues to deepen. Winds will increase out of the south to southwest over the higher terrain late today and spread to more areas early in the week. Smoke from active fires in northwest California will likely lift up into the south to southwest general winds earlier today than yesterday and drift to the north and northeast. This trend will continue at least through midweek. On Monday, as the low pressure trough deepens offshore and the south to southwest flow strengthens, moist unstable air will reach far northwest California. There is a slight chance of afternoon showers or thunderstorms there each day through Thursday, with better chances north of the Oregon state line. Current computer forecast models are indicating a possibility of monsoon moisture moving northward and producing isolated thunderstorms with light rainfall in the Bay Area and Lake Tahoe regions by Tuesday evening and spreading over all but northwest California Wednesday into early Thursday. Computer models are also showing the trough moving through the northern California region late Friday and Saturday with light rain possible over all but the southern third of the region.

SOUTHERN CALIFORNIA:

Strong high pressure over the Southwestern States will bring a little above normal temperatures to the region through Friday, with upper 70s and 80s across the mountains and 90s to 102 in the valleys. Southeast flow aloft will bring isolated to scattered showers and thunderstorms mainly to the mountains and deserts of Southern California east of the Cajon Pass, Monday afternoon through Tuesday afternoon. Some left over moisture may continue to cause isolated afternoon thunderstorms over the higher terrain east of the I-15 corridor on Wednesday, but most of the activity will end as the flow aloft switches back to the southwest. Minimum relative humidity will be mainly in the teens above and inland from the marine layer this week. However, minimum relative humidity will rise to the 20% to 40% range across much of Southern California Tuesday and Wednesday as monsoonal moisture comes up from the southeast. The marine layer will be between 1,000 and 2,000 feet deep this week, with morning low clouds and fog moving mainly over the coastal areas. Winds will be fairly light this week, except for strong downdraft winds associated with any thunderstorm.

SITUATION SUMMARY

FIRES, SOUTHERN OPERATIONS AREA

Rough, Vegetation Fire, Fresno County

Location: 5 miles north of Hume Lake and 2.5 miles southwest of Spanish Mountain

Jurisdiction: FRA

Start Time: 07/31/15 at 1933 hours

Per Cal OES, CAL FIRE, and ICS-209 as of 08/23/15 at 1801 hours:

- 49,440 Acres, 7% Contained

Evacuations/Shelters:

- Mandatory Evacuation Areas:
 - The Hume Lake Christian Conference was evacuated 08/18/15. Per the Cal OES Law Duty Officer (LDO) evacuation was accomplished in less than 2 ½ hours due in significant part to prior planning between Fresno Sheriff and the Camp Staff. The group of 750 to 1000 people were evacuated to a sister Church in Fresno for sheltering.
 - There are 250 mandatory evacuations in the National Park Campgrounds in the immediate area of Hume Lake Christian Camp.
 - There has been an evacuation of 32 private residences, believed to be all vacation homes in the Big Meadow and Heart Meadow Neighborhood.
 - Approximately 1,500 campers in several Kings Canyon National Park Campgrounds located along 10 Mile Rd have been placed under mandatory evacuation.
- EOC Activations: Fresno County EOC is activated at Level 1 for the weekend.
- The California Highway Patrol has also moved the road closure, which had been located at the intersection of Highway 180 and Hume Lake Road. The new road closure now sits further south on Highway 180 at Grant Grove Tree (approximately 2 miles north of the Hwy. 180 and Hwy. 198 interchange). The roadway will remain closed until authorities determine it is safe to reopen. The Sheriff's Office wants to make the public aware that no one will be allowed to enter the Hume Lake area; people will only be allowed to exit.
- Per CUEA, PG&E critical facilities and distribution assets are no longer in a high risk category for threats to power serving Central California. CAISO has reviewed PG&E facility locations that may be impacted by the fire and none of the locations would compromise the grid in any capacity. There would be no brownouts if these sites were impacted.

CAL OES MISSIONS

New Cal OES Missions

- **2015-LAW-15596 08/23/15, 1530 hours:** AFRCC advised of an ELT sounding near Livermore, Alameda County. CAP IC will be activated to locate and silence the device. **Mission Ongoing.**
- **2015-LAW-15590 08/23/15, 1113 hours:** CHP requesting a mission number for a vehicle recovery out of the Whiskey Slough in San Joaquin County. Cal OES LDO coordinating resources. **Mission Ongoing.**

Ongoing Cal OES Missions

- **2015-LAW-15570 08/22/15, 1111 hours:** Fresno County Sheriffs' Office requested a helicopter for a high altitude search mission, 11,500 feet. Missing Person (MP), 63 year old female, was last seen on Thursday, 08/20/15, at 1300 hours by individuals within her hiking group near Wishon Reservoir. The California National Guard (CNG) accepted the mission to insert SAR personnel into the search area and provide night time search efforts using night vision equipment along with hoist capability. CNG arrived in the area but was unable to assist due to heavy smoke from the Rough Fire. CNG committed to a second day of search efforts, 8/23/15, for an early morning flight into the search area, 0630 hours. In addition, MIGU-5 and 3 ACS Staff are deployed assisting with communications support. **Mission Ongoing.**
- **2015-LAW-14555 08/03/15, 0800 hours, Update: 08/19/15:** Due to the continued fire activity with the five different complex fires within Trinity County, the Trinity County Sheriff is making an additional LEMA request for 16 sworn LE personnel with marked patrol units to assist in perimeter control, traffic control, evacuations, and security. This is for another operational period of 8/22/2015 thru 8/28/2015 to relieve the current Op period. Cal OES LEB is coordinating with Region's 2, 3, and 4 RMAC for the additional LEMA request. No changes to current evacuations and road closures. Additionally, per T-Comm they will continue to support the requested additional operational period with the MIGU, cache of hand held radios, and technicians.
